

500kg Screw Drive Platform Lift

500Kg Screw Drive Platform Lift

Introducing the Screw Drive Platform lift, offering an increased capacity of 500Kg, better accessibility with 1000mm wide landing doors on the standard platform and a robust and reliable design. The lift is designed with a flexibility to fulfil individual requirement and fit into both new and existing buildings serving up to 6 different levels and a maximum travel of 13m. We offer a range of platform sizes for applications within retail, schools and colleges along with uses as varied as local villages halls to nation

corporate office. Being an extremely flexible product the lift can be configured to resolve issues within the most awkward building arrangements, while at the same time occupying a space of only 1550mm wide X 1650mm long with a standard useable platform size of 1100mm wide X 1500mm long, complying with building regulations Part M and the new European platform lift standard (EN81.41).
